

JOGMEC work for coal development

JOGMEC work for coal development in 2015~2016

Global / Regional

Comprehensive Study on Overseas Coal Resources Development, Investment Promotion Seminar to provide information

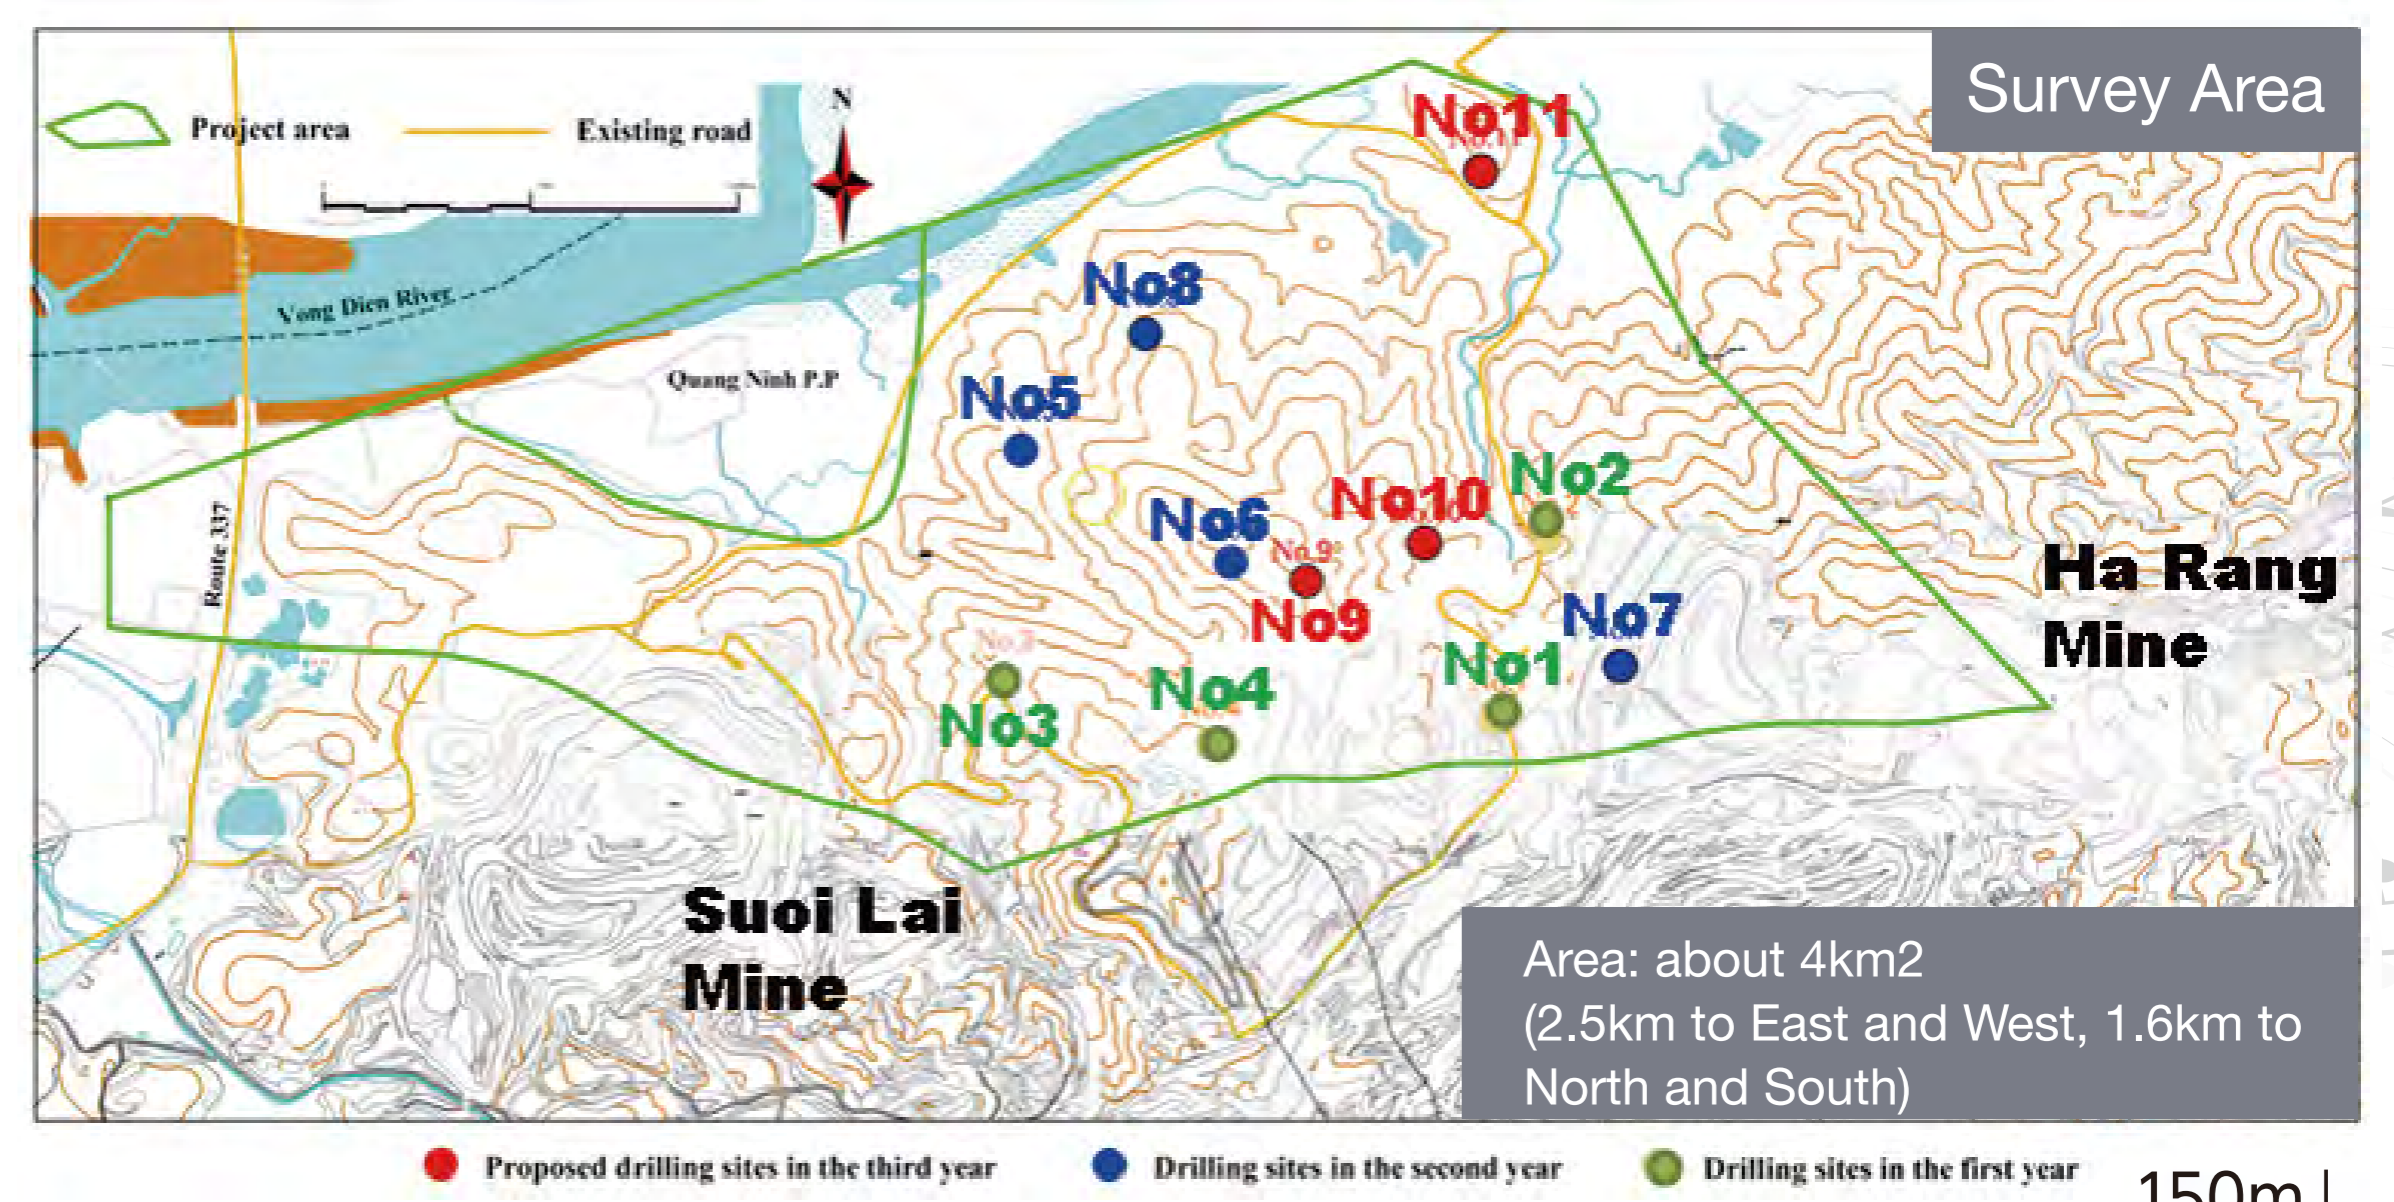

Joint Coal Survey (Bac Suoi Lai in Vietnam)

- Signed MOU with VINACOMIN (Vietnam National Coal and Mineral Industries Group) on August 2014
- Survey Period: 3 years (JFY2014-JFY2016) • Target: anthracite
- Benefit: Coal Purchasing Right (Right to purchase a certain amount of anthracite coal product derived from the survey area or equivalent product from the Quang Ninh Province every year at then current prevailing market price)

The potential of high quality anthracite which are in demand from Japanese companies (Hong Gai Coal) is expected

Coal seam core of No.3
 ★10m-thick-coal at a depth from 122.2 to 148.8m of No.3 hole was intersected at the south
