

## Integrated Geoscience Service

### Onshore & Offshore seismic survey

### Outline

JGI is an Integrated Geoscience Service Company with wide experience in Geophysical Data Acquisition, Processing and G&G Interpretation.

### What can be achieved

- 2D/3D/4D Geophysical Data Acquisition Onshore, Transition Zone & Offshore
- 2D/3D/4D Geophysical Data Processing and G&G Interpretation
- Seismic Monitoring for Civil Engineering
- Technology Innovation in Engineering Geophysics
- Geological Evaluation for Conventional & Unconventional Resources
- Remote Sensing, Geoinformatics & IT Solutions for the above
